

Course Handbook Health Care Bachelor

created at 26.04.2022,13:32

Head of Studies	Prof. Dr. Anne-Kathrin Cassier-Woidasky
Deputy Head of Studies	
Chairman of Examination	Prof. Dr. Iris Burkholder
Deputy Chairman of Examination	Prof. Dr. Christine Dörge

Health Care Bachelor - mandatory courses (overview)

Module name (EN)	Code	Semester	Hours per semester week / Teaching method	ECTS	Module coordinator
Case Management: Organizing and Managing the Provision of Nursing Care	BAP5602	6	6S	5	Studienleitung
Case Studies in Nursing and Care: Critical Reflection and Understanding	BAP1504	5	6S	6	Studienleitung
Ethical and Legal Issues in Nursing and Caregiving	BAP3505	5	5S	5	Studienleitung
Helping, Showing, Advising: Educational Aspects of Nursing Care I	BAP6601	6	4S	3	Prof. Dr. Christine Dörge
Helping, Showing, Advising: Educational Aspects of Nursing Care II	BAP6701	7	6S	7	Prof. Dr. Christine Dörge
Models, Concepts and Theories of Nursing and Caregiving	BAP3403	4	6S	6	Studienleitung
Movement and Personal Hygiene	BAP2101	1	6S	6	Studienleitung
Nursing and Caregiving as a Profession: Preparatory Orientation Course	BAP1101	1	5S	5	Studienleitung
Nursing/Care Study Project	BAP3606	6	4S	5	Studienleitung
Palliative and Terminal Care	BAP2507	5	5S	5	Studienleitung
Perception, Communication and Relationships	BAP1102	1	5S	5	Studienleitung
Practical Training Module IV	BAP8404	4	-	5	Studienleitung
Practical Training Module V	BAP8505	5	-	5	Studienleitung
Practical Training Module VII	BAP8707	7	-	5	Studienleitung
Prevention	BAP4503	5	5S	5	Prof. Dr. Christine Dörge
Quality Development and the Compilation of Care Needs Assessments	BAP5703	7	6S	5	Prof. Dr. Christine Dörge

Rehabilitative Care	BAP2608	6	5S	5	Prof. Dr. Christine Dörge
Understanding Patient Needs	BAP2102	1	5S	5	Studienleitung
Understanding Research Methods and Procedures	BAP3404	4	5S	5	Prof. Dr. Christine Dörge

(19 modules)

Health Care Bachelor - optional courses (overview)

Module name (EN)	Code	Semester	Hours per semester week / Teaching method	ECTS	Module coordinator
Implementing Therapeutic Interventions II	BAP7602	-	-	6	Studienleitung

(1 module)

Health Care Bachelor - mandatory courses

Case Management: Organizing and Managing the Provision of Nursing Care

Module name (EN): Case Management: Organizing and Managing the Provision of Nursing Care
Degree programme: Health Care, Bachelor, ASPO 01.10.2014
Module code: BAP5602
SAP-Submodule-No.: P311-0112
Hours per semester week / Teaching method: 6S (6 hours per week)
ECTS credits: 5
Semester: 6
Mandatory course: yes
Language of instruction: German
Assessment: - [updated 01.10.2020]
Applicability / Curricular relevance: BAP5602 (P311-0112) Health Care, Bachelor, ASPO 01.10.2012, semester 6, mandatory course BAP5602 (P311-0112) Health Care, Bachelor, ASPO 01.10.2014, semester 6, mandatory course
Workload: 90 class hours (= 67.5 clock hours) over a 15-week period. The total student study time is 150 hours (equivalent to 5 ECTS credits). There are therefore 82.5 hours available for class preparation and follow-up work and exam preparation.
Recommended prerequisites (modules): BAP1101 Nursing and Caregiving as a Profession: Preparatory Orientation Course BAP1102 Perception, Communication and Relationships BAP1203 BAP2101 Movement and Personal Hygiene BAP2102 Understanding Patient Needs BAP2203 BAP2204 BAP2507 Palliative and Terminal Care BAP3403 Models, Concepts and Theories of Nursing and Caregiving BAP3505 Ethical and Legal Issues in Nursing and Caregiving [updated 14.04.2022]
Recommended as prerequisite for: BAP6701 Helping, Showing, Advising: Educational Aspects of Nursing Care II [updated 01.12.2020]

Module coordinator:

Studienleitung

Lecturer:

htwsaar intern

[updated 14.04.2022]

Learning outcomes:

After successfully completing this module, students will:

- _ be qualified to analyze, organize and control nursing care and service processes in different healthcare institutions/settings according to individual needs and on a case-by-case basis.
- _ be able to assess functional structural requirements and distinguish between the different dimensions and fields of action in case management.

[updated 01.10.2020]

Module content:

Based on the recommendations of the GKV-Spitzenverband according to § 7 a para. 3 sentence 3 SGB XI on the number and qualification of nursing consultants from August 29th, 2008:

Theoretical and practical principles of case management:

- Definitions and functions of case management
- Case management concepts
- Collaboration and networking in interdisciplinary cooperation
- Resource analysis and resource assurance
- Concepts for demand assessment and supply management
- Field of action-specific theories and applications

Advanced study in specific fields of work:

- Intervention logics to implement existing legislation
- Nursing care case management
- Case management in outpatient, long-term inpatient care settings
- Creating care plans taking into account recognized classification systems (e.g. ICF)
- Care plans as a means of case management
- Knowledge of social law procedures (administrative act, opposition, complaint)
 - _ Principles of social-legal action (§§ 12ff SGB X)
 - _ Advisory assistance according to § 37 para. 3 SGB XI
 - _ Concepts of integrative work with relatives
- _ Decision-making processes _ Change processes and their dynamics

[updated 01.10.2020]

Teaching methods/Media:

Campus-based study:

Seminaristic instruction, group work, case discussions, exercises

Independent study:

Literature research and study, case study, case management control loop

[updated 01.10.2020]

Recommended or required reading:

The current module reading list is handed out by the lecturer.

[updated 01.12.2020]

Case Studies in Nursing and Care: Critical Reflection and Understanding

Module name (EN): Case Studies in Nursing and Care: Critical Reflection and Understanding
Degree programme: Health Care, Bachelor, ASPO 01.10.2014
Module code: BAP1504
SAP-Submodule-No.: P311-0107
Hours per semester week / Teaching method: 6S (6 hours per week)
ECTS credits: 6
Semester: 5
Mandatory course: yes
Language of instruction: German
Assessment: Case study [updated 01.10.2020]
Applicability / Curricular relevance: BAP1504 (P311-0107) Health Care, Bachelor, ASPO 01.10.2012, semester 5, mandatory course BAP1504 (P311-0107) Health Care, Bachelor, ASPO 01.10.2014, semester 5, mandatory course
Workload: 90 class hours (= 67.5 clock hours) over a 15-week period. The total student study time is 180 hours (equivalent to 6 ECTS credits). There are therefore 112.5 hours available for class preparation and follow-up work and exam preparation.
Recommended prerequisites (modules): BAP1101 Nursing and Caregiving as a Profession: Preparatory Orientation Course BAP1102 Perception, Communication and Relationships BAP1203 BAP2102 Understanding Patient Needs BAP2204 BAP3302 BAP4301 BAP5301 [updated 14.04.2022]
Recommended as prerequisite for: BAP6601 Helping, Showing, Advising: Educational Aspects of Nursing Care I BAP6701 Helping, Showing, Advising: Educational Aspects of Nursing Care II [updated 01.12.2020]

Module coordinator:

Studienleitung

Lecturer:

htwsaar intern

[updated 14.04.2022]

Learning outcomes:

After successfully completing this module, students will:

- be familiar with the concept of understanding cases using specific methods and be able to apply this knowledge.
- have internalized the systematics of hermeneutical case understanding as a basic requirement for professional care.
- have learned to take a questioning, (self-)reflective attitude with regard to the perceived singular-case-specific characteristics of the patients/patients in need of care.

[updated 01.10.2020]

Module content:

1. Paradoxes of professional action
2. Hermeneutical case understanding
3. Applied case understanding

[updated 01.10.2020]

Teaching methods/Media:

Group work, partner work, POL (problem oriented learning)/case work

[updated 01.10.2020]

Recommended or required reading:

The current module reading list is handed out by the lecturer.

[updated 01.12.2020]

Ethical and Legal Issues in Nursing and Caregiving

Module name (EN): Ethical and Legal Issues in Nursing and Caregiving
Degree programme: Health Care, Bachelor, ASPO 01.10.2014
Module code: BAP3505
SAP-Submodule-No.: P311-0081
Hours per semester week / Teaching method: 5S (5 hours per week)
ECTS credits: 5
Semester: 5
Mandatory course: yes
Language of instruction: German
Assessment: Course achievement [updated 01.10.2020]
Applicability / Curricular relevance: BAP3505 (P311-0081) Health Care, Bachelor, ASPO 01.10.2012, semester 5, mandatory course BAP3505 (P311-0081) Health Care, Bachelor, ASPO 01.10.2014, semester 5, mandatory course
Workload: 75 class hours (= 56.25 clock hours) over a 15-week period. The total student study time is 150 hours (equivalent to 5 ECTS credits). There are therefore 93.75 hours available for class preparation and follow-up work and exam preparation.
Recommended prerequisites (modules): BAP1101 Nursing and Caregiving as a Profession: Preparatory Orientation Course BAP1102 Perception, Communication and Relationships BAP1203 BAP2102 Understanding Patient Needs BAP2203 BAP2204 BAP3201 BAP3302 BAP4301 BAP4402 BAP5301 [updated 14.04.2022]

Recommended as prerequisite for:

[BAP5602](#) Case Management: Organizing and Managing the Provision of Nursing Care

[BAP6701](#) Helping, Showing, Advising: Educational Aspects of Nursing Care II

[updated 14.04.2022]

Module coordinator:

Studienleitung

Lecturer:

htwsaar intern

[updated 14.04.2022]

Learning outcomes:

After successfully completing this module, students will:

_ have acquired a basic understanding of the ethical dimension of nursing care.

_ be professionally competent in ethical (nursing) care. They will be able to identify and systematically analyze ethical dimensions in concrete contexts.

[updated 01.10.2020]

Module content:

1. Principles and central concepts of ethics
2. Classic positions in ethics
3. Ethical problems in nursing practice

[updated 01.10.2020]

Teaching methods/Media:

Seminaristic instruction, group work, case discussions, video sequence analysis

[updated 01.10.2020]

Recommended or required reading:

The current module reading list is handed out by the lecturer.

[updated 01.12.2020]

Helping, Showing, Advising: Educational Aspects of Nursing Care I

Module name (EN): Helping, Showing, Advising: Educational Aspects of Nursing Care I
Degree programme: Health Care, Bachelor, ASPO 01.10.2014
Module code: BAP6601
SAP-Submodule-No.: P311-0089
Hours per semester week / Teaching method: 4S (4 hours per week)
ECTS credits: 3
Semester: 6
Mandatory course: yes
Language of instruction: German
Assessment: - [updated 01.10.2020]
Applicability / Curricular relevance: BAP6601 (P311-0089) Health Care, Bachelor, ASPO 01.10.2012, semester 6, mandatory course BAP6601 (P311-0089) Health Care, Bachelor, ASPO 01.10.2014, semester 6, mandatory course
Workload: 60 class hours (= 45 clock hours) over a 15-week period. The total student study time is 90 hours (equivalent to 3 ECTS credits). There are therefore 45 hours available for class preparation and follow-up work and exam preparation.
Recommended prerequisites (modules): BAP1101 Nursing and Caregiving as a Profession: Preparatory Orientation Course BAP1102 Perception, Communication and Relationships BAP1203 BAP1504 Case Studies in Nursing and Care: Critical Reflection and Understanding BAP3403 Models, Concepts and Theories of Nursing and Caregiving BAP5301 [updated 01.12.2020]
Recommended as prerequisite for: BAP6701 Helping, Showing, Advising: Educational Aspects of Nursing Care II [updated 01.12.2020]
Module coordinator: Prof. Dr. Christine Dörge

Lecturer:

htwsaar intern

[updated 01.12.2020]

Learning outcomes:

After successfully completing this module, students will:

_ have acquired basic didactic and methodological competence that can help them to guide and professionally accompany members of their own and other health care professions in various care settings.

[updated 01.10.2020]

Module content:

Nursing pedagogical principles of practical training

- _ Basics of learning and motivation psychology
- _ Basics of action-oriented didactics and specialized didactics of nursing
- _ Skill development: Development of nursing competence,
- _ Concept of competence, developing competence through cooperations between places of learning, learning field concept
- _ Competence-oriented learning offers, e.g. problem-oriented learning in practice, case discussions, project lessons, learning workshop, skills lab training
- _ Learning outcomes, taxonomies
- _ The structure of the guidance process

Instruments for assessing and reflecting on practical training

- _ Assessment procedures and assessment instruments (examination procedures, framework curriculum)
- _ Evaluation criteria and mistakes
- _ Conducting appraisal interviews, critiques, discussions about promotions, target agreement discussions
- _ Methods for reflection, self- and external evaluation (subjective/objective)
- _ Dealing with conflicts, disorders and learning difficulties
- _ Learning guidance

[updated 01.10.2020]

Teaching methods/Media:

Campus-based study:

Seminaristic instruction, group work, self awareness, role playing

Independent study:

Literature research and study, exercises

[updated 01.10.2020]

Recommended or required reading:

The current module reading list is handed out by the lecturer.

[updated 01.12.2020]

Helping, Showing, Advising: Educational Aspects of Nursing Care II

Module name (EN): Helping, Showing, Advising: Educational Aspects of Nursing Care II
Degree programme: Health Care, Bachelor, ASPO 01.10.2014
Module code: BAP6701
SAP-Submodule-No.: P311-0090
Hours per semester week / Teaching method: 6S (6 hours per week)
ECTS credits: 7
Semester: 7
Mandatory course: yes
Language of instruction: German
Assessment: Case discussions [updated 01.10.2020]
Applicability / Curricular relevance: BAP6701 (P311-0090) Health Care, Bachelor, ASPO 01.10.2012, semester 7, mandatory course BAP6701 (P311-0090) Health Care, Bachelor, ASPO 01.10.2014, semester 7, mandatory course
Workload: 90 class hours (= 67.5 clock hours) over a 15-week period. The total student study time is 210 hours (equivalent to 7 ECTS credits). There are therefore 142.5 hours available for class preparation and follow-up work and exam preparation.
Recommended prerequisites (modules): BAP1203 BAP1504 Case Studies in Nursing and Care: Critical Reflection and Understanding BAP3302 BAP3505 Ethical and Legal Issues in Nursing and Caregiving BAP5602 Case Management: Organizing and Managing the Provision of Nursing Care BAP6601 Helping, Showing, Advising: Educational Aspects of Nursing Care I [updated 01.12.2020]
Recommended as prerequisite for:
Module coordinator: Prof. Dr. Christine Dörge
Lecturer: htwsaar intern [updated 01.12.2020]

Learning outcomes:

Overall objectives:

After successfully completing this module, students will:

- _ be familiar with the legal framework of the practical training in health and nursing professions.
- _ have acquired an understanding of the guidance, counselling and training of patients and caregivers as constitutive components of service provision and as an important field of action for all professions in the care and health sector.
- _ be able to involve patients and their caregivers more actively in the treatment and care process through counselling.

[updated 01.10.2020]

Module content:

- Special legal fields and framework guidelines relevant to nursing education (32 units)
- Health and nursing counselling (40 units)

[updated 01.10.2020]

Teaching methods/Media:

Seminar and case work

[updated 01.10.2020]

Models, Concepts and Theories of Nursing and Caregiving

Module name (EN): Models, Concepts and Theories of Nursing and Caregiving
Degree programme: Health Care, Bachelor, ASPO 01.10.2014
Module code: BAP3403
SAP-Submodule-No.: P311-0095
Hours per semester week / Teaching method: 6S (6 hours per week)
ECTS credits: 6
Semester: 4
Mandatory course: yes
Language of instruction: German
Assessment: Term paper [updated 01.10.2020]
Applicability / Curricular relevance: BAP3403 (P311-0095) Health Care, Bachelor, ASPO 01.10.2012, semester 4, mandatory course BAP3403 (P311-0095) Health Care, Bachelor, ASPO 01.10.2014, semester 4, mandatory course
Workload: 90 class hours (= 67.5 clock hours) over a 15-week period. The total student study time is 180 hours (equivalent to 6 ECTS credits). There are therefore 112.5 hours available for class preparation and follow-up work and exam preparation.
Recommended prerequisites (modules): BAP1101 Nursing and Caregiving as a Profession: Preparatory Orientation Course BAP1203 BAP2102 Understanding Patient Needs BAP2204 BAP3201 BAP4301 BAP8101 BAP8202 BAP8303 [updated 14.04.2022]

Recommended as prerequisite for:

[BAP3606](#) Nursing/Care Study Project

[BAP5602](#) Case Management: Organizing and Managing the Provision of Nursing Care

[BAP6601](#) Helping, Showing, Advising: Educational Aspects of Nursing Care I

[BAP8505](#) Practical Training Module V

[updated 14.04.2022]

Module coordinator:

Studienleitung

Lecturer:

Professoren des Studiengangs

[updated 14.04.2022]

Learning outcomes:

After successfully completing this module, students will:

- be able to work with different nursing process models as instruments of professional care.
- be able to critically reflect on nursing science concepts, theories and models against the background of their practical applicability and usefulness
- be familiar with measures for evaluation and quality assurance

[updated 01.10.2020]

Module content:

1. Nursing/caregiving theories and concepts
2. Nursing process planning

[updated 01.10.2020]

Teaching methods/Media:

Seminaristic instruction, group work. POL

[updated 01.10.2020]

Movement and Personal Hygiene

Module name (EN): Movement and Personal Hygiene
Degree programme: Health Care, Bachelor, ASPO 01.10.2014
Module code: BAP2101
SAP-Submodule-No.: P311-0078
Hours per semester week / Teaching method: 6S (6 hours per week)
ECTS credits: 6
Semester: 1
Mandatory course: yes
Language of instruction: German
Assessment: Written exam [updated 01.10.2020]
Applicability / Curricular relevance: BAP2101 (P311-0078) Health Care, Bachelor, ASPO 01.10.2012, semester 1, mandatory course BAP2101 (P311-0078) Health Care, Bachelor, ASPO 01.10.2014, semester 1, mandatory course
Workload: 90 class hours (= 67.5 clock hours) over a 15-week period. The total student study time is 180 hours (equivalent to 6 ECTS credits). There are therefore 112.5 hours available for class preparation and follow-up work and exam preparation.
Recommended prerequisites (modules): None.
Recommended as prerequisite for: BAP2203 BAP2204 BAP2305 BAP2406 BAP3302 BAP4503 Prevention BAP5301 BAP5602 Case Management: Organizing and Managing the Provision of Nursing Care BAP8202 BAP8303 BAP8404 Practical Training Module IV [updated 14.04.2022]
Module coordinator: Studienleitung

Lecturer:

Ulrike Scholz
htwsaar extern
htwsaar intern

[updated 14.04.2022]

Learning outcomes:

After successfully completing this module, students will be able to derive individual care needs, irrespective of age, in the areas of movement and personal hygiene based on the problems and resources that have been identified.

[updated 01.10.2020]

Module content:

1. Physiological principles
2. (Nursing) principles of movement and personal hygiene in different phases of life
3. Basic Course Kinaesthetics in der Pflege®

[updated 01.10.2020]

Teaching methods/Media:

Seminaristic instruction, group discussion/work, partner work, self-awareness, Kinaesthetics in der Pflege®

[updated 01.10.2020]

Recommended or required reading:

BAP8202

BAP8303

[updated 14.04.2022]

Module coordinator:

Studienleitung

Lecturer:

Prof. Dr. Christine Dörge

Prof. Robert Roßbruch

Dr. Sindy Lautenschläger

htwsaar intern

[updated 14.04.2022]

Learning outcomes:

After successfully completing this module, students will:

- have received an orientation and introduction to the study and practical professional training of nursing and caregiving.
- have had the opportunity to reflect on their entry into nursing studies against the background of their own (professional) biographical experience, for example with professional nursing and/or in the care of relatives.
- have become familiar with nursing as a professional field and academic profession.
- be able to reflect on professional nursing work as an ethical challenge for nursing staff.
- have had the opportunity to reflect on ways of maintaining and promoting their own health (including occupational safety).
- be able to perceive care in their different fields of activity and subject areas.
- have had the opportunity to learn, practice and apply the learning and presentation techniques necessary for success in their studies.
- have developed an understanding of scientific work. They will have developed strategies for searching for information and organizing knowledge, as well as finding literature and using it scientifically.

[updated 01.10.2020]

Module content:

1. History of the development of professional nursing care
2. Introduction into the laws pertaining to the profession
3. Introduction to the learning locations
4. The principles of scientific work

[updated 01.10.2020]

Teaching methods/Media:

Seminaristic instruction, moderated group work/group puzzle, partner work, talks with contemporary witnesses, exercises, PC exercises in the CIP room

[updated 01.10.2020]

Recommended or required reading:

The current module reading list is handed out by the lecturer.

[updated 01.12.2020]

Nursing/Care Study Project

Module name (EN): Nursing/Care Study Project
Degree programme: Health Care, Bachelor, ASPO 01.10.2014
Module code: BAP3606
SAP-Submodule-No.: P311-0096
Hours per semester week / Teaching method: 4S (4 hours per week)
ECTS credits: 5
Semester: 6
Mandatory course: yes
Language of instruction: German
Assessment: Oral examination [updated 01.10.2020]
Applicability / Curricular relevance: BAP3606 (P311-0096) Health Care, Bachelor, ASPO 01.10.2012, semester 6, mandatory course BAP3606 (P311-0096) Health Care, Bachelor, ASPO 01.10.2014, semester 6, mandatory course
Workload: 60 class hours (= 45 clock hours) over a 15-week period. The total student study time is 150 hours (equivalent to 5 ECTS credits). There are therefore 105 hours available for class preparation and follow-up work and exam preparation.
Recommended prerequisites (modules): BAP1101 Nursing and Caregiving as a Profession: Preparatory Orientation Course BAP1203 BAP3201 BAP3403 Models, Concepts and Theories of Nursing and Caregiving BAP3404 Understanding Research Methods and Procedures BAP4301 [updated 14.04.2022]
Recommended as prerequisite for:
Module coordinator: Studienleitung
Lecturer: Studienleitung [updated 01.04.2020]

Learning outcomes:

In the course of this module, students will:

learn to work on application-related topics from practical institutions in an interdisciplinary perspective under the methodological-didactic guidance of teaching staff and to then transfer their research results into practice.

[updated 01.10.2020]

Module content:

_Theoretical principles:

- Evaluation and reflection of selected current research results
- Development of a research topic and a research design
- Principles of planning projects (with regard to research projects)
- Basic structure of research proposals (DFG and BMBF)
- Basic structure of an exposé
- Presentation of (partial) research results and research plan

[updated 01.10.2020]

Teaching methods/Media:

Campus-based study:

Group work, presentation/moderation, project work

Independent study:

Literature research and study, project work

[updated 01.10.2020]

Recommended or required reading:

The current module reading list is handed out by the lecturer.

[updated 01.12.2020]

Palliative and Terminal Care

Module name (EN): Palliative and Terminal Care
Degree programme: Health Care, Bachelor, ASPO 01.10.2014
Module code: BAP2507
SAP-Submodule-No.: P311-0092
Hours per semester week / Teaching method: 5S (5 hours per week)
ECTS credits: 5
Semester: 5
Mandatory course: yes
Language of instruction: German
Assessment: Oral examination [updated 01.10.2020]
Applicability / Curricular relevance: BAP2507 (P311-0092) Health Care, Bachelor, ASPO 01.10.2012, semester 5, mandatory course BAP2507 (P311-0092) Health Care, Bachelor, ASPO 01.10.2014, semester 5, mandatory course
Workload: 75 class hours (= 56.25 clock hours) over a 15-week period. The total student study time is 150 hours (equivalent to 5 ECTS credits). There are therefore 93.75 hours available for class preparation and follow-up work and exam preparation.
Recommended prerequisites (modules): BAP1101 Nursing and Caregiving as a Profession: Preparatory Orientation Course BAP1102 Perception, Communication and Relationships BAP1203 [updated 14.04.2022]
Recommended as prerequisite for: BAP2608 Rehabilitative Care BAP5602 Case Management: Organizing and Managing the Provision of Nursing Care BAP8707 Practical Training Module VII [updated 14.04.2022]
Module coordinator: Studienleitung

Lecturer:

htwsaar intern

[updated 14.04.2022]

Learning outcomes:

After successfully completing this module, students will have acquired the skills to accompany people of all ages and their caregivers in the case of incurable illness and to support them according to their needs. The examination of incurable illness, pain, dying and death takes place in reflection of one's own experiences and horizons of meaning.

[updated 01.10.2020]

Module content:

1. Oncological and palliative care
2. Saying goodbye and mourning
3. Ethical and legal frameworks

[updated 01.10.2020]

Teaching methods/Media:

Seminaristic instruction, field trip, group work, self-awareness

[updated 01.10.2020]

Recommended or required reading:

The current module reading list is handed out by the lecturer.

[updated 01.12.2020]

Perception, Communication and Relationships

Module name (EN): Perception, Communication and Relationships
Degree programme: Health Care, Bachelor, ASPO 01.10.2014
Module code: BAP1102
SAP-Submodule-No.: P311-0113
Hours per semester week / Teaching method: 5S (5 hours per week)
ECTS credits: 5
Semester: 1
Mandatory course: yes
Language of instruction: German
Assessment: Course achievement [updated 01.10.2020]
Applicability / Curricular relevance: BAP1102 (P311-0113) Health Care, Bachelor, ASPO 01.10.2012, semester 1, mandatory course BAP1102 (P311-0113) Health Care, Bachelor, ASPO 01.10.2014, semester 1, mandatory course
Workload: 75 class hours (= 56.25 clock hours) over a 15-week period. The total student study time is 150 hours (equivalent to 5 ECTS credits). There are therefore 93.75 hours available for class preparation and follow-up work and exam preparation.
Recommended prerequisites (modules): None.
Recommended as prerequisite for: BAP1203 BAP1504 Case Studies in Nursing and Care: Critical Reflection and Understanding BAP2203 BAP2204 BAP2305 BAP2507 Palliative and Terminal Care BAP3302 BAP3505 Ethical and Legal Issues in Nursing and Caregiving BAP5301 BAP5602 Case Management: Organizing and Managing the Provision of Nursing Care BAP6601 Helping, Showing, Advising: Educational Aspects of Nursing Care I BAP8202 BAP8303 [updated 14.04.2022]
Module coordinator: Studienleitung

Lecturer:

Prof. Dr. Susanne Grundke

Prof. Dr. Dagmar Renaud

Dr. Gerhard Klink

[updated 14.04.2022]

Learning outcomes:

After successfully completing this module, students will:

- will have acquired application-oriented skills in the area of perception (self-perception and perception by others) as well as in the area of communication and relationship building
- be able to reflect on the importance of perception processes, as well as designing communication and relationships as the central nursing care-relevant basis of person- and situation-related care.

[updated 01.10.2020]

Module content:

1. The physiology of perception
2. Social information processing
3. The principles of communication and observation in nursing

[updated 01.10.2020]

Teaching methods/Media:

Seminaristic instruction, group discussion/work, partner discussion/work, self-awareness in groups, role-playing

[updated 01.10.2020]

Recommended or required reading:

The current module reading list is handed out by the lecturer.

[updated 01.12.2020]

Practical Training Module IV

Module name (EN): Practical Training Module IV
Degree programme: Health Care, Bachelor, ASPO 01.10.2014
Module code: BAP8404
SAP-Submodule-No.: P311-0101
Hours per semester week / Teaching method: -
ECTS credits: 5
Semester: 4
Mandatory course: yes
Language of instruction: German
Assessment: Practical work experience [updated 01.10.2020]
Applicability / Curricular relevance: BAP8404 (P311-0101) Health Care, Bachelor, ASPO 01.10.2012, semester 4, mandatory course BAP8404 (P311-0101) Health Care, Bachelor, ASPO 01.10.2014, semester 4, mandatory course
Workload: The total student study time for this course is 150 hours.
Recommended prerequisites (modules): BAP1203 BAP2101 Movement and Personal Hygiene BAP2102 Understanding Patient Needs BAP2203 BAP2204 BAP3201 BAP8101 BAP8202 BAP8303 [updated 14.04.2022]
Recommended as prerequisite for: BAP8505 Practical Training Module V BAP8606 BAP8707 Practical Training Module VII BAP8808 [updated 14.04.2022]
Module coordinator: Studienleitung

Lecturer:

Anke Kochems-Becker, B.A.
htwsaar extern
htwsaar intern

[updated 14.04.2022]

Learning outcomes:

After successfully completing this module, students will have acquired the skills to provide professional, appropriate nursing care to patients in need of surgical and/or medical treatment across all age groups and areas of care. They will be able to work confidently with the nursing process model including evaluation. They will be able to critically reflect upon theories and models of nursing and health sciences against the background of their practical applicability and derive nursing science research questions from professional practice.

[updated 01.10.2020]

Module content:

- Research methods and processes
- Wound management
- Health behavior and promotion

[updated 01.10.2020]

Teaching methods/Media:

- Exploratory task / Development of a research task
- Observation task / Health behavior of all those involved in the care process
- Task _ Management of medical care or wound care_
- 3-day skills lab

[updated 01.10.2020]

Recommended or required reading:

The current module reading list is handed out by the lecturer.

[updated 01.12.2020]

Practical Training Module V

Module name (EN): Practical Training Module V
Degree programme: Health Care, Bachelor, ASPO 01.10.2014
Module code: BAP8505
SAP-Submodule-No.: P311-0102
Hours per semester week / Teaching method: -
ECTS credits: 5
Semester: 5
Mandatory course: yes
Language of instruction: German
Assessment: Practical work experience [updated 01.10.2020]
Applicability / Curricular relevance: BAP8505 (P311-0102) Health Care, Bachelor, ASPO 01.10.2012, semester 5, mandatory course BAP8505 (P311-0102) Health Care, Bachelor, ASPO 01.10.2014, semester 5, mandatory course
Workload: The total student study time for this course is 150 hours.
Recommended prerequisites (modules): BAP2102 Understanding Patient Needs BAP2203 BAP2204 BAP3201 BAP3302 BAP3403 Models, Concepts and Theories of Nursing and Caregiving BAP3404 Understanding Research Methods and Procedures BAP4402 BAP8101 BAP8202 BAP8303 BAP8404 Practical Training Module IV [updated 14.04.2022]
Recommended as prerequisite for: BAP8606 BAP8707 Practical Training Module VII BAP8808 [updated 14.04.2022]

Module coordinator:

Studienleitung

Lecturer:

Anke Kochems-Becker, B.A.
htwsaar extern
htwsaar intern

[updated 14.04.2022]

Learning outcomes:

After successfully completing this module, students will:

- possess transferable knowledge about method-guided case understanding.
- have internalized the systematics of hermeneutical case understanding as a basic requirement for professional care.
- have learned to take a questioning, (self-)reflective attitude with regard to the perceived singular-case-specific characteristics of the patients/patients in need of care.

After successfully completing this module, students will have acquired the skills to accompany people of all ages and their caregivers in the case of incurable illness and to support them according to their needs. The examination of incurable illness, pain, dying and death takes place in reflection of one's own experiences and horizons of meaning.

- Students will have acquired a basic understanding of the ethical dimension of nursing care.
- They will be professionally competent in ethical (nursing) care. They will be able to identify and systematically analyze ethical dimensions in concrete contexts.
- They will have acquired well-founded theory-based and practice-oriented professional competence with regard to the connections between society, prevention and the preventative aspects of caregiving.
- They will understand the concept of prevention and its objectives and will be able to differentiate it from health promotion measures

[updated 01.10.2020]

Module content:

- Common oncological diseases, diagnostics, therapy and care of life-shortening diseases
- Principles of palliative care
- Treatment and quality criteria for the individual, needs-oriented care of patients and their relatives/affiliates in accordance with the care guidelines of the Nursing Section of the German Society for Palliative Medicine (Deutschen Gesellschaft für Palliativmedizin):
- Special pain management
- Conducting conversations with dying and mourning people
- Socio-cultural aspects
- Powers of attorney and patient decrees

[updated 01.10.2020]

Teaching methods/Media:

- Exploratory project "Fields of prevention associated with nursing" ("Pflegeassoziierte Präventionsfelder")
- Observation project "Ethical challenges in practice and possible solutions" ("Ethische Herausforderungen im Praxisfeld und Lösungsansätze")
- Work assignment "Selective instruction and accompaniment in the care of a seriously ill person or person in need of the most intensive care" ("Punktuelle Anleitung und Begleitung bei der Pflege eines Schwerstkranken bzw. Schwerstpflegebedürftigen Menschen")
- 3 practice-related study days

[updated 01.10.2020]

Recommended or required reading:

The current module reading list is handed out by the lecturer.

Workload: 75 class hours (= 56.25 clock hours) over a 15-week period. The total student study time is 150 hours (equivalent to 5 ECTS credits). There are therefore 93.75 hours available for class preparation and follow-up work and exam preparation.
Recommended prerequisites (modules): BAP2507 Palliative and Terminal Care BAP3201 BAP4301 [updated 01.12.2020]
Recommended as prerequisite for:
Module coordinator: Prof. Dr. Christine Dörge
Lecturer: htwsaar intern [updated 01.12.2020]

Learning outcomes:

After successfully completing this module, students will be able to activate patients of all ages as early as possible, to help them to help themselves and to support them in regaining the greatest possible independence in everyday life.

[updated 01.10.2020]

Module content:

Basic principles of rehabilitation and rehabilitative care

- _ Rehabilitation indications, areas, phases and goals
- _ Cost aspects of rehabilitation, rehabilitation providers
- _ Rehabilitation law
- _ Living with mental/spiritual and /or physical impairments
- _ Performance and requirements

Rehabilitation indications and forms of rehabilitative care

- _ Rheumatic diseases
- _ Atopic conditions
- _ Psychosomatic conditions
- _ Apoplectic insult, heart attack and other acute events
- _ Addictions
- _ Eating disorders

Rehabilitative care

- _ Selected care and support concepts (e.g. self-preservation therapy according to Romero, validation, supported communication, basal stimulation, Bobath concept)
- _ Nursing interventions in connection with physical therapy
- _ Nursing interventions in connection with the administration of drugs
- _ Promoting self-mobility
- _ Therapeutic patient positioning on a neurophysiological basis
- _ Training, consulting and education
- _ Advice and guidance on the individual choice and use of remedies and aids
- _ Environmental design/adapting living spaces

[updated 01.10.2020]

Teaching methods/Media:

Campus-based study:

Seminaristic instruction, group work, self awareness, role playing

Independent study:

Literature research and study, self awareness exercises
